Become a Tahoe Keeper

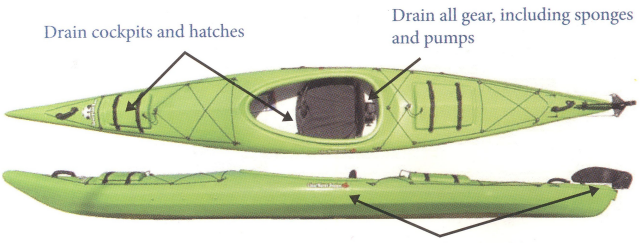
Learn how to self-inspect your canoe, kayak, or paddleboard. It's quick and easy!

1. **Visit TahoeKeepers.org**
2. **Watch the short video and learn about self-inspecting your canoe, kayak, or paddleboard.**
3. **Take the quiz.**

You will then receive your Tahoe Keeper credential packet with sticker to show you've done your part to protect Lake Tahoe.

To protect your favorite pastime and prevent the illegal spread of aquatic invasive species:



- ☑ **CLEAN** non-motorized watercraft with clean water, removing all dirt, plant, and other material from your rudder, hull, cockpit, and fishing gear.
- ☑ **DRAIN** the water from your hatches, cockpits, boards, and gear on land before you leave the immediate area.
- ☑ **DRY** your kayak, canoe, or gear before launching.

Free inspections and decontaminations for paddlers at various locations.
